

# DRILLED SOLIDS MANAGEMENT EQUIPMENT & SERVICES

RESPONSIBLE WASTE MANAGEMENT

Effective Waste Management  
**SOLUTIONS**

Tiger's Direct Driven Variable  
Speed Cuttings Dryer

*The industry's most sophisticated & efficient cuttings dryer.*

## Products & Services

- Zero Discharge & Cuttings Box Solutions
- Drilled Cuttings Conveyance Equipment
- Cuttings Dryers & Drying Shakers
- Rig Vacuum Systems
- Variable Speed Centrifuges
- Cargo Carrying Equipment

Scan here to learn  
more about our  
Products & Services

The processes are engineered to provide innovative solutions to the most challenging drilling projects. The systems can be combined or used individually to:

- Reduce drilling fluids dilution rates
- Reduce cost by reducing volume of additives and recovering valuable additives
- Improve drilling fluid/mud properties, allowing for higher flow rates
- Extend the life of the drilling fluids
- Reduce disposal cost
- Produce merchantable crude oil by removing solids from production slops
- Achieve environmental and regulatory compliance

# Centrifuges

## Brakesmart HH5500 Centrifuge

- VFD Controlled
- 16" Bowl Units
- Processing Capacity of 12000 LBS/HR
- Controlled by One Centralized Panel
- Offshore Space Saving Stand:
  - Control Panel
  - Discharge Augers
  - Collection Tanks
  - Feed Pumps (Moyno-Pumps)
  - Manifoldded

# Cuttings Dryer

## CSI - D4 Vertical Cuttings Dryer

- Max G-Force - 550G's
- Processing Capacity of 80 TPH
- VFD Controlled
- Controlled from a Centralized Touch-Screen Control System

# Zero Discharge

## Cuttings Collection

- 22 & 25 BBL Cuttings Boxes
- DNV Certified
- Certified Slings
- GPS Tracking

# Shakers

- Collection Tanks Available
- Start/Stop Control Panel
- Multiple Screen Mesh Sizes
- Available (API 80 - API 200)

# Cuttings Conveyance & Fluids Transfer

## 100 & 50 HP Vacuums

- 16" HG Max Vacuum
- Vacuum Drop Tanks Available

## Auger - 12" Screw Conveyors

- 10 - 20 HP Explosion Proof Motor
- Can be Built to Different Lengths (12 ft, 24 ft, or 36 ft)
- Gear Drive Assembly

## Pump - Centrifugal Pumps

- 3" x 3" Units Available
- Close Coupled
- 490 GPM (US) Flow Rate
