OVERVIEW

About Tiger Rentals

Tiger Rental Group, LLC (“Tiger Rentals”) is a U.S. based energy and infrastructure rental and service company which serves the onshore and offshore upstream, midstream, and downstream markets globally.

Tiger Rentals is made up of four major companies:

- **Tiger Offshore Rentals**
- **Tiger Industrial Rentals**
- **Tiger Safety Rentals**
- **PMI Energy Services**

Our core rental assets include offshore cargo carrying equipment, fluid tanks, pumps, power generation, temporary matting, flowback and production units, and safety equipment. Tiger also offers support services, such as automated tank

cleaning, waste treatment and processing, packaging and transfer, chemical fluids mixing, and logistics solutions. Our rental equipment and services reach across drilling, completions, production, pipeline, petrochemical and refining, utility transmission and distribution, telecommunications infrastructure, offshore wind energy, and highway construction industries. Tiger operates facilities throughout the U.S. Gulf Coast and in numerous international locations spanning the Caribbean, South America, Africa, the Mediterranean and the Middle East. The majority of our operations are located in North America.

Responsiveness, reliability and determination, combined with our unrivaled experience, have made Tiger a trusted name in the oilfield services industry. Our team of experts is safety minded, globally mobile, trained and certified. Our facilities span across five continents where we have experts available 24/7/365 ready to assist with whatever you need.

Mission

At Tiger, our business philosophy is to provide reliable equipment within a safe and professional culture with a “Make It Happen” attitude. Our goal at Tiger Rentals is to be #1 in our products for our geographic markets. We will accomplish this goal by providing the highest quality products in the industry, unequaled levels of service, and creative solutions for our customers’ needs.

Vision

The outlook for Tiger Rentals is to flourish in future years through continuous operational improvements, relentless dedication to customer service, and sincere respect for team members.

Values

ENTREPRENEURSHIP
“Every Day a Better Way”
...Taking Ownership...
Championing...Self Starting.

EXECUTION
Timely, consistent, quality task completion without undue push-back.

CUSTOMER DEDICATION
Make sure EVERY task is focused on delivering for our customers.

CANDOR
Unfiltered, timely assessment and communication which acknowledges reality.

GLOBAL

MAP KEY

- Tiger Offshore Rentals
- Tiger Industrial Rentals
- Tiger Safety Rentals
- PMI Energy Services

Tiger Rentals has a growing geographic footprint that spans across the globe. We have fully stocked locations at key ports in North America, South America, Africa, the Mediterranean, Middle East and Southeast Asia allowing us to dispatch the equipment you need, where you need it - 24/7/365.

Offshore Logistics Rentals & Services

DURABLE. DEPENDABLE. AVAILABLE.

Tiger Offshore is a U.S. based energy rental and service company which serves the offshore upstream market globally. Our reliable rental equipment and services reach across drilling, completions and production projects. Our core rental assets include fluid tanks, offshore baskets, containers, cuttings boxes, special carriers, slings and rigging.

- Our equipment is designed, constructed, and tested to EN12079-1, DNV 2.7-1, SEPCo Ops 0055, or API RP and fabricated for offshore dynamic lifting in accordance with API RP 2A.
- Tiger Offshore slings are designed to DNV 2.7-1 or AMSE B30.9 standards and only use approved quality manufactures with mill certs for all materials used in the building process.
- We redefined asset control with global cutting edge GPS tracking.
- Our units are painted in “safety orange” for high visibility in harsh, high-activity environments common to offshore.
- Van Beest “Safety Green Pin” style shackles are on all equipment (DNV batch certified).
- ISO 9001, ISO 14001, OHSAS 18001, DPC MARINHA do Brasil certified.

Gulf of Mexico

DEPENDABLE

When it comes to supplying essential offshore equipment, you need a company that gets the job done right. That's the mark of Tiger.

Cuttings Boxes

Waste Skips

Job Boxes

Transporters & Lifting Frames

CARGO CARRYING UNITS

Offshore cargo can vary in weights, dimensions, configurations and materials, and Tiger offers the largest, well maintained and most diverse fleet of cargo carrying units in the business. In fact, we have over 75 different containers to choose from in the broadest range of heights, widths and lengths up to 105 feet. With Tiger, you are able to source the right containers for every job.

Tiger's fleet is built to last and constructed of the toughest materials. We offer ample options for specialized uses, such as additional tie downs, saddle support for containing round objects, side door access for easy loading on some DNV 2.7-1 baskets, and rubber seals on open baskets to make them fluid containment capable. Our units meet industry standards for labeling details such as load capability and the top rails are painted safety orange for high visibility in the harsh, high-activity environments common to offshore.

DNV/API Sizes and Styles Available

- Drum Racks/Bottle Racks
- Carriers, Transporters & Lifting Frames
- Supply Vessel Pipe Racks
- 4' - 105' Baskets
- 5' - 20' Closed/Dry and Open Top Containers
- 10' - 20' Refrigerated Containers

Slings & Rigging

BUILT TOUGH

CUTTINGS BOXES & WASTE SKIPS

Tiger maintains a large inventory of cuttings boxes in a variety of sizes. Every unit is built for outstanding offshore performance with features such as a rust-resistant galvanized finish and multiple ports that allow for faster cuttings collection. Our cuttings boxes are designed to readily adapt to a wide variety of closed-loop systems, with user-friendly features that allow easy handling by multiple subcontractors throughout the delivery-removal cycle. This gives you immense flexibility across your operations while strictly maintaining compliance.

Sizes Available

- 15 bbl / 15 bbl DNV
- 16 bbl DNV (International)
- 25 bbl / 25 bbl DNV
- 22 bbl DNV (International)

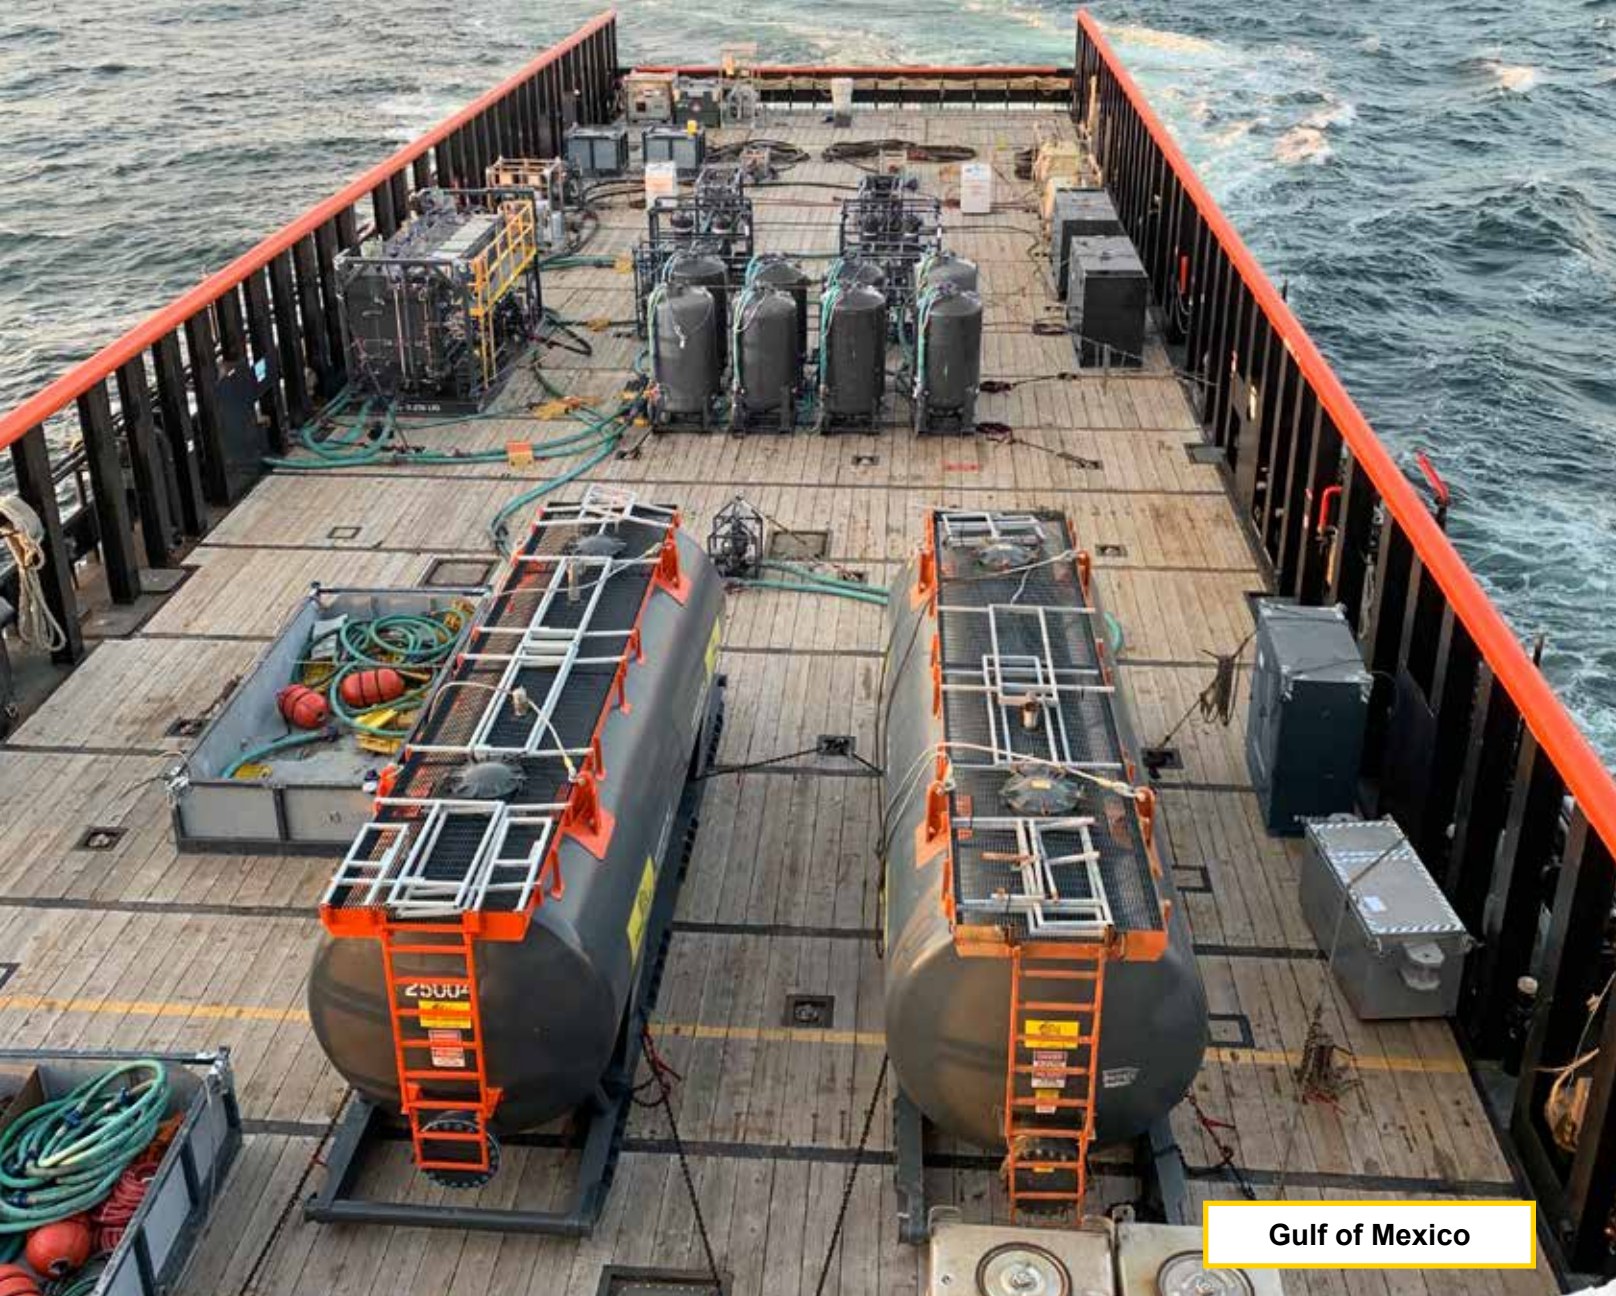

SLINGS & RIGGING

Tiger also manufactures its own highly reliable pipe slings. Our trained staff performs visual inspections on every sling between each rental, as well as, periodic physical inspections per local regulations. So, when you are moving pipe you can be confident it is properly and safely supported.

Marine Portable Tanks

FLUID TANKS

When you need fluid tanks for your operations, Tiger is the company you can count on every time. We offer multiple styles and sizes in both vertical and horizontal configurations.

Tiger's Coast Guard, IM 101, IMDG, DPC, IBC, and UN tanks keep your fluids safely and reliably contained. Each unit is designed and constructed with robust components to prevent leaks and provide years of reliable performance.

We offer a full line of offshore tanks for fluid collection, storage, transport and disposal. Our tanks are designed for drilling muds, completion fluids, production chemicals, acids, lubricants, aviation fuel, waste oil and waste water. Tiger has the tank assets to support everything from a 10,000 bbl flow back job to something as common as transporting 1,000 gallons of diesel. Our tank sizes vary from 55 gallons to 21,000 gallons.

Depending on the intended contents, we can also add various chemical-resistant liners. Designed for optimal product compatibility, these liners prevent contamination of vital fluid assets.

- Tank Cleaning - Automatic & Manual
- Offshore Production Maintenance Cleaning
- Waste Management
- Slurry Oil Recovery
- Shore Base Support Services

At Tiger Rentals, we ensure our personnel is well experienced and thoroughly trained to provide quality service and technical expertise to address our customers' every need.

Tiger operates in over 30 countries around the world with professionals available 24/7/365 to serve you.

EXPERTISE

Chaguaramas, Trinidad

INTERNATIONAL SERVICES

At Tiger, we are committed to providing clients with safe, effective and cost-efficient solutions that meet their individual needs so we tailor our services to do just that.

SERVICES:

- Cleaning Services for Drilling and Production
- Solids Control / Waste Management
- Flow Iron & Flow Back Setup and Rentals
- Shorebase Operations

Offshore Supply Vessel Tank Cleaning

Our automated MudHog Tank Cleaning System is an innovative process for cleaning mud tanks on marine supply vessels. Tiger has the experience, expertise and technology to provide clients with the highest quality of both conventional and automated cleaning services. We focus on lowering rig cost through reduction of downtime waste, with a goal to help expedite the demobilization of the rig.

Solids Control

- Multiple innovative waste management solutions to reduce drill cuttings haul-off and disposal volumes, while recovering drilling fluid for reuse in both onshore and offshore applications.

- Processes are engineered to meet and exceed drilling expectations with contingency plans proposed to eliminate rig non-productive time (NPT).
- Our annular cuttings box feed inlet design, used in conjunction with DNV cuttings boxes, eliminates the need for flipping cuttings box lids on zero discharge projects offshore, allowing for increased Rates of Penetration (ROP) and drastically reducing the potential for HSE incidents.

NORM Expertise

- As an industry leader in Naturally Occurring Radioactive Material (NORM) removal, Tiger offers services for decontamination, remediation and waste processing to ensure we handle each customer's unique requirements.

Environmental Services

- Oil Spill Response
- Remediation and Restoration
- Decommissioning and Demolition
- Surveys and Assessments
- Project Management

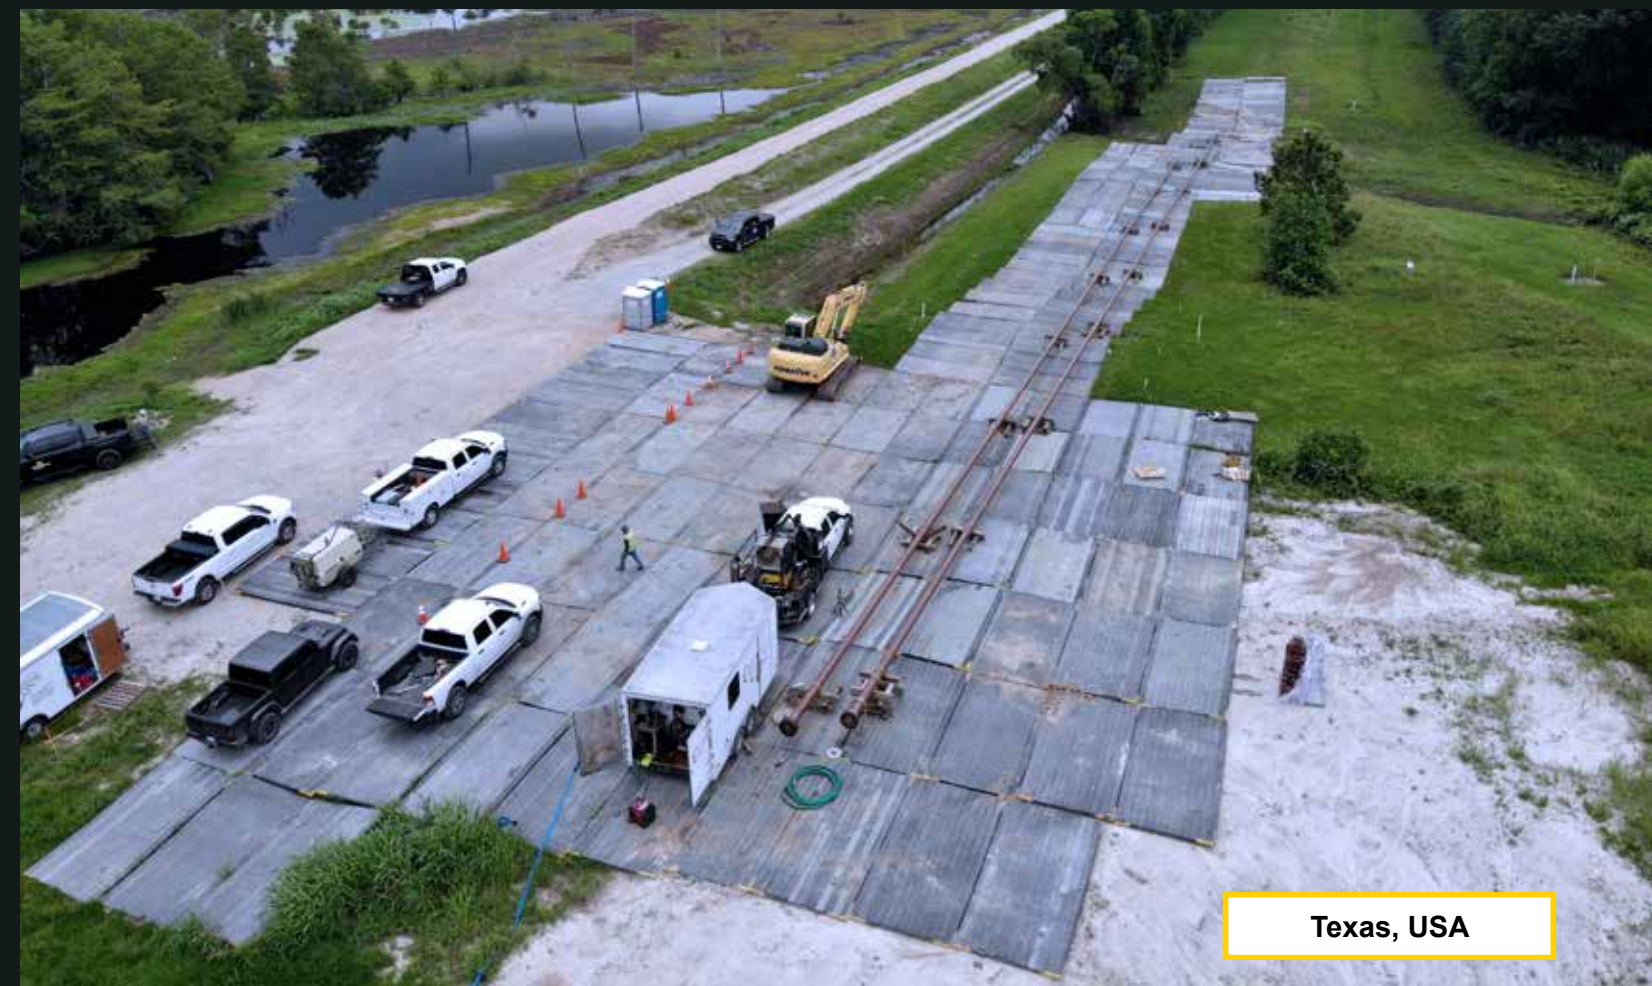

Industrial Rentals & Services

RELIABLE. VERSATILE. RESPONSIVE.

Tiger Industrial is an energy rental and service company which serves the onshore upstream, midstream, and downstream markets. Our reliable rental equipment and services reach across drilling, completions, production, pipeline, petrochemical, refining and transmission & distribution projects. Our core rental assets include pumps, matting, power generation, blast resistant buildings, and HP cleaning equipment.

Texas, USA

Texas, USA

RELIABLE

Customers come back to us again and again because we provide much more than the best equipment – we forge a strong vendor-client partnership geared to getting the job done right.

Generators

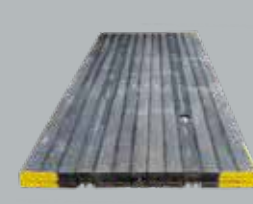

Blast Resistant Buildings

Pressure Washers

Pumps

Mats

For onshore rentals, Tiger Industrial is your go-to source. We have facilities from Louisiana to the Permian Basin with a full range of top-shelf equipment for cleaning, pumping, matting, power generation and blast-resistant buildings. Every piece of equipment is put through a rigorous maintenance regimen to ensure the highest quality and performance.

PUMPS

Tiger has a large fleet of pumps in a variety of sizes and styles. Every unit is built tough for outstanding performance.

Pumps Available

- Centrifugal & Trash
- Water Transfer
- Vac Assisted
- High Pressure Duplex & Triplex
- Fill & Test
- Boiler Water Feed
- Multi-stage Centrifugal
- Fire Suppression
- Cooling Tower Supply
- Fluid Transfer
- Tank Cleaning
- Pipeline Fill and Test

POWER GENERATION

Tiger maintains an extensive fleet of generators and light towers for remote power generation requirements. We keep our ready-line up and ready to dispatch at a moment's notice.

Generators & Light Towers Available

- 25 kVA - 2 MG
- Turbine - 36 MW
- Natural Gas Parallel-able

HP CLEANING UNITS

Tiger carries a variety of pressure washers and specialty pumps to meet requirements for upstream, midstream and downstream work-sites.

Cleaning Equipment Available

- 3,500 to 40,000 psi
- Air-operated Screen Cleaners
- Hot Water / Steam up to 5,000 psi
- Diesel and Explosion-proof Electric
- Steam Generators for de-icing and de-gassing

DURABLE

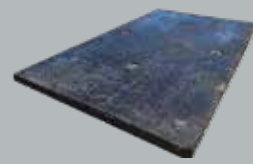

Tiger's ECOMats are safer, tougher and better for the environment. When you need to keep your crew, equipment and the land you are working on in good condition, rely on Tiger to protect them all.

BLAST RESISTANT BUILDINGS

Whether you need blast protection, as a result of an explosion, or a safe place to take cover during a hurricane, Tiger Industrial Rentals has just the unit for your worksite.

Our different sizes are rated from 6.3 psi up to 10 psi, at a medium response. This assures that no matter your need on size or strength, our buildings meet or exceed the siting requirements in protecting your most valuable assets - your people.

Our buildings can be customized to meet your specific needs whether you are looking for an office space, safety command center, tool room or multi-bathroom building. Tiger will ensure your blast resistant building is designed to meet your exact specifications.

Sizes Available:

- 10 psi 12' x 40'
- 8.0 psi 12' x 40'
- 8.0 psi 8' x 40'
- 6.3 psi 8' x 40'
- 6.3 psi 8' x 20'

MATS

Tiger now offers 3 unique matting solutions for temporary ground protection on your work-sites. Each of our mats have a distinct individual advantage to fit specific job requirements whether for upstream, midstream or downstream environments. Our combined fleet of mats encompasses solutions for refineries, integrity pipeline work, access roads, tank farms, high lines, train derailments, frac sand, well completion sites, construction sites for LNG, chemical plant projects, and more.

Mats Available

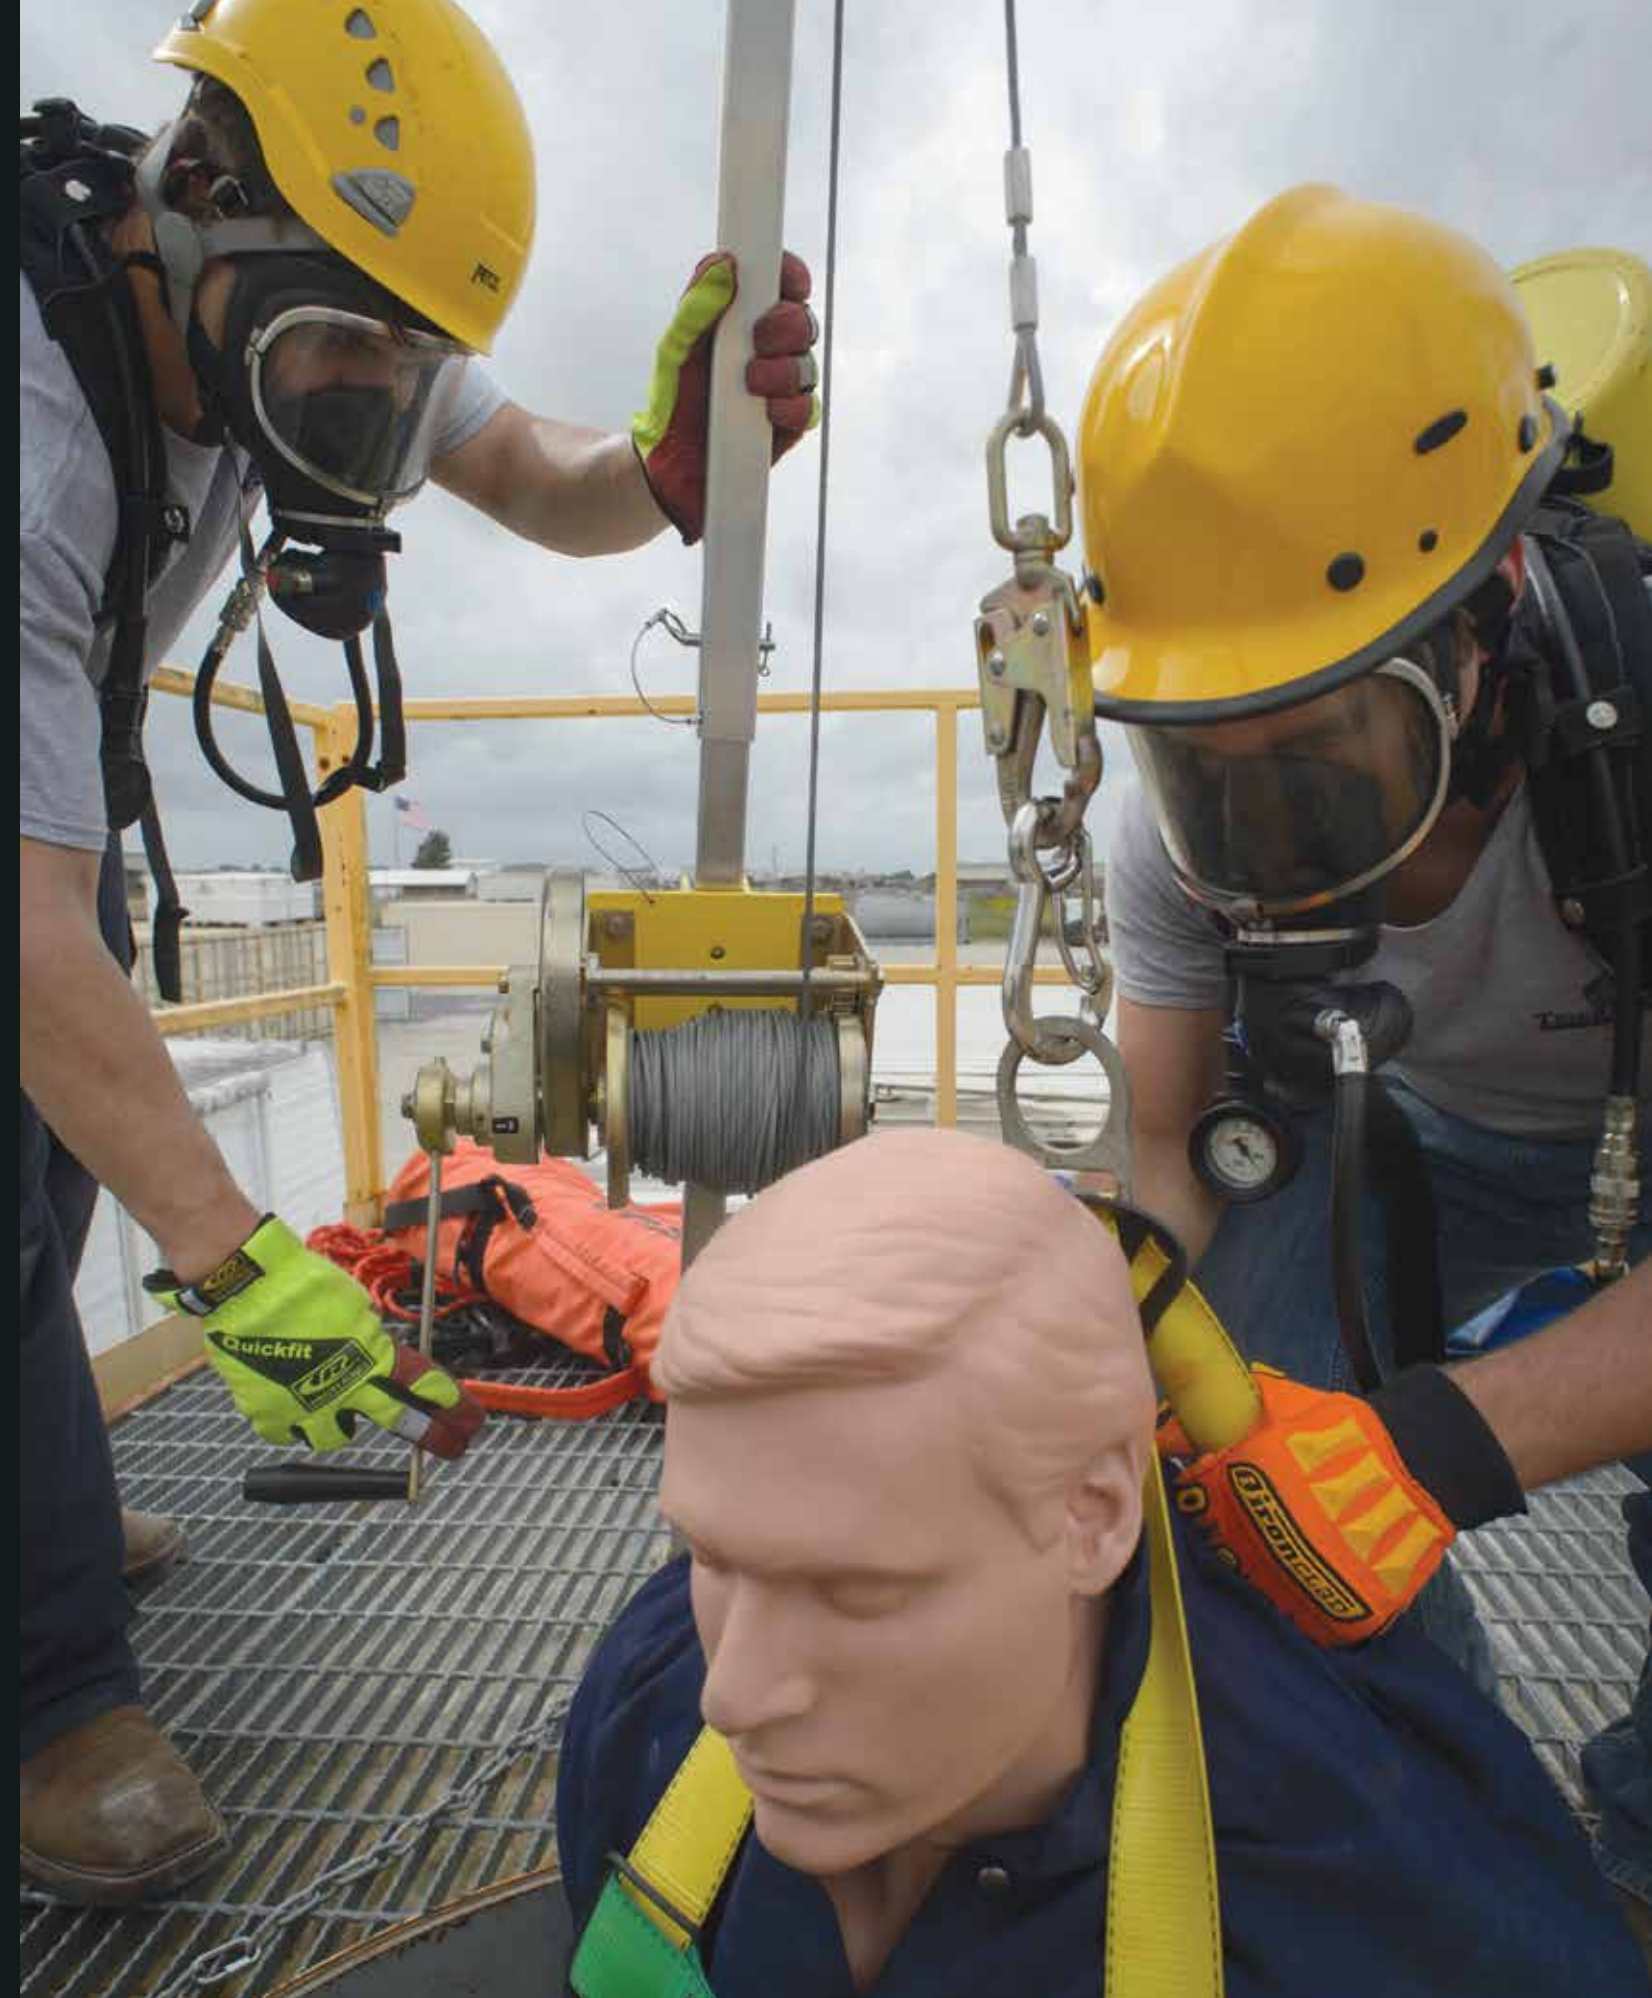

- ECOMats™
- Tiger Poly Mats
- Tiger T&D Mats

Safety Equipment Rentals & Services

ASSURANCE. SECURITY. METICULOUS.

Tiger Safety is a U.S. based oilfield safety service and equipment rental company which serves the upstream markets. Our reliable rental equipment and services reach across drilling, completions and production projects. Our core rental assets include flowback, production, well testing and safety equipment with support services in H₂S safety, confined space & rescue, work-site safety, vessel inspections, field services and training.

ASSURANCE

At Tiger Safety, we guarantee our equipment meets strict quality control industry standards. Each unit is serviced and maintained by highly trained technicians who conduct extensive testing to ensure each product is fully operational, safe for use and ready to handle your next project.

Tiger Safety offers specialized services and equipment tailored to meet the demanding safety requirements of onshore and offshore oil and gas companies worldwide. We work directly with major oil and service companies, leveraging our extensive industry experience and unparalleled reach to deliver the highest quality and most cost effective specialty safety equipment and services to our clients.

FLOW BACK, WELL TESTING & PRODUCTION

At Tiger Safety, we specialize in renting out high-pressure well testing equipment for Completions, Production & Testing including ASME-coded units. We are committed to providing the most durable and robust equipment in the industry. Our large inventory allows us to service all major shale plays in the United States, including Permian, Eagle Ford, Marcellus, Niobrara, Barnett, Haynesville, Bakken, Anadarko-Woodford, Granite Wash, Utica and more.

Flow Back, Well Testing & Production Equipment Available

- Sand Traps (#5800 and 15k)
- Flare Stack Trailers
- Test Separators
- Monorail Trailers
- Plug Catchers
- Flow Iron
- Hydraulic Choke Manifolds & Control Units

H₂S SAFETY & RESCUE

Tiger Safety provides the highest quality, most meticulously maintained equipment for our services and straight rentals. Our safety technicians specialize in H₂S contingency plan compliance, gas detection, respiratory protection equipment, and on-site H₂S training. Our technicians are also trained and experienced in confined-space and hazardous operations, high-angle rescue and atmospheric control.

H₂S Safety & Rescue Equipment Available

- Alarm Systems
- Breathing Air & Accessories
- Gas Detection
- Self Contained Breathing Apparatus (SCBA)
- Confined Space & Rescue Equipment

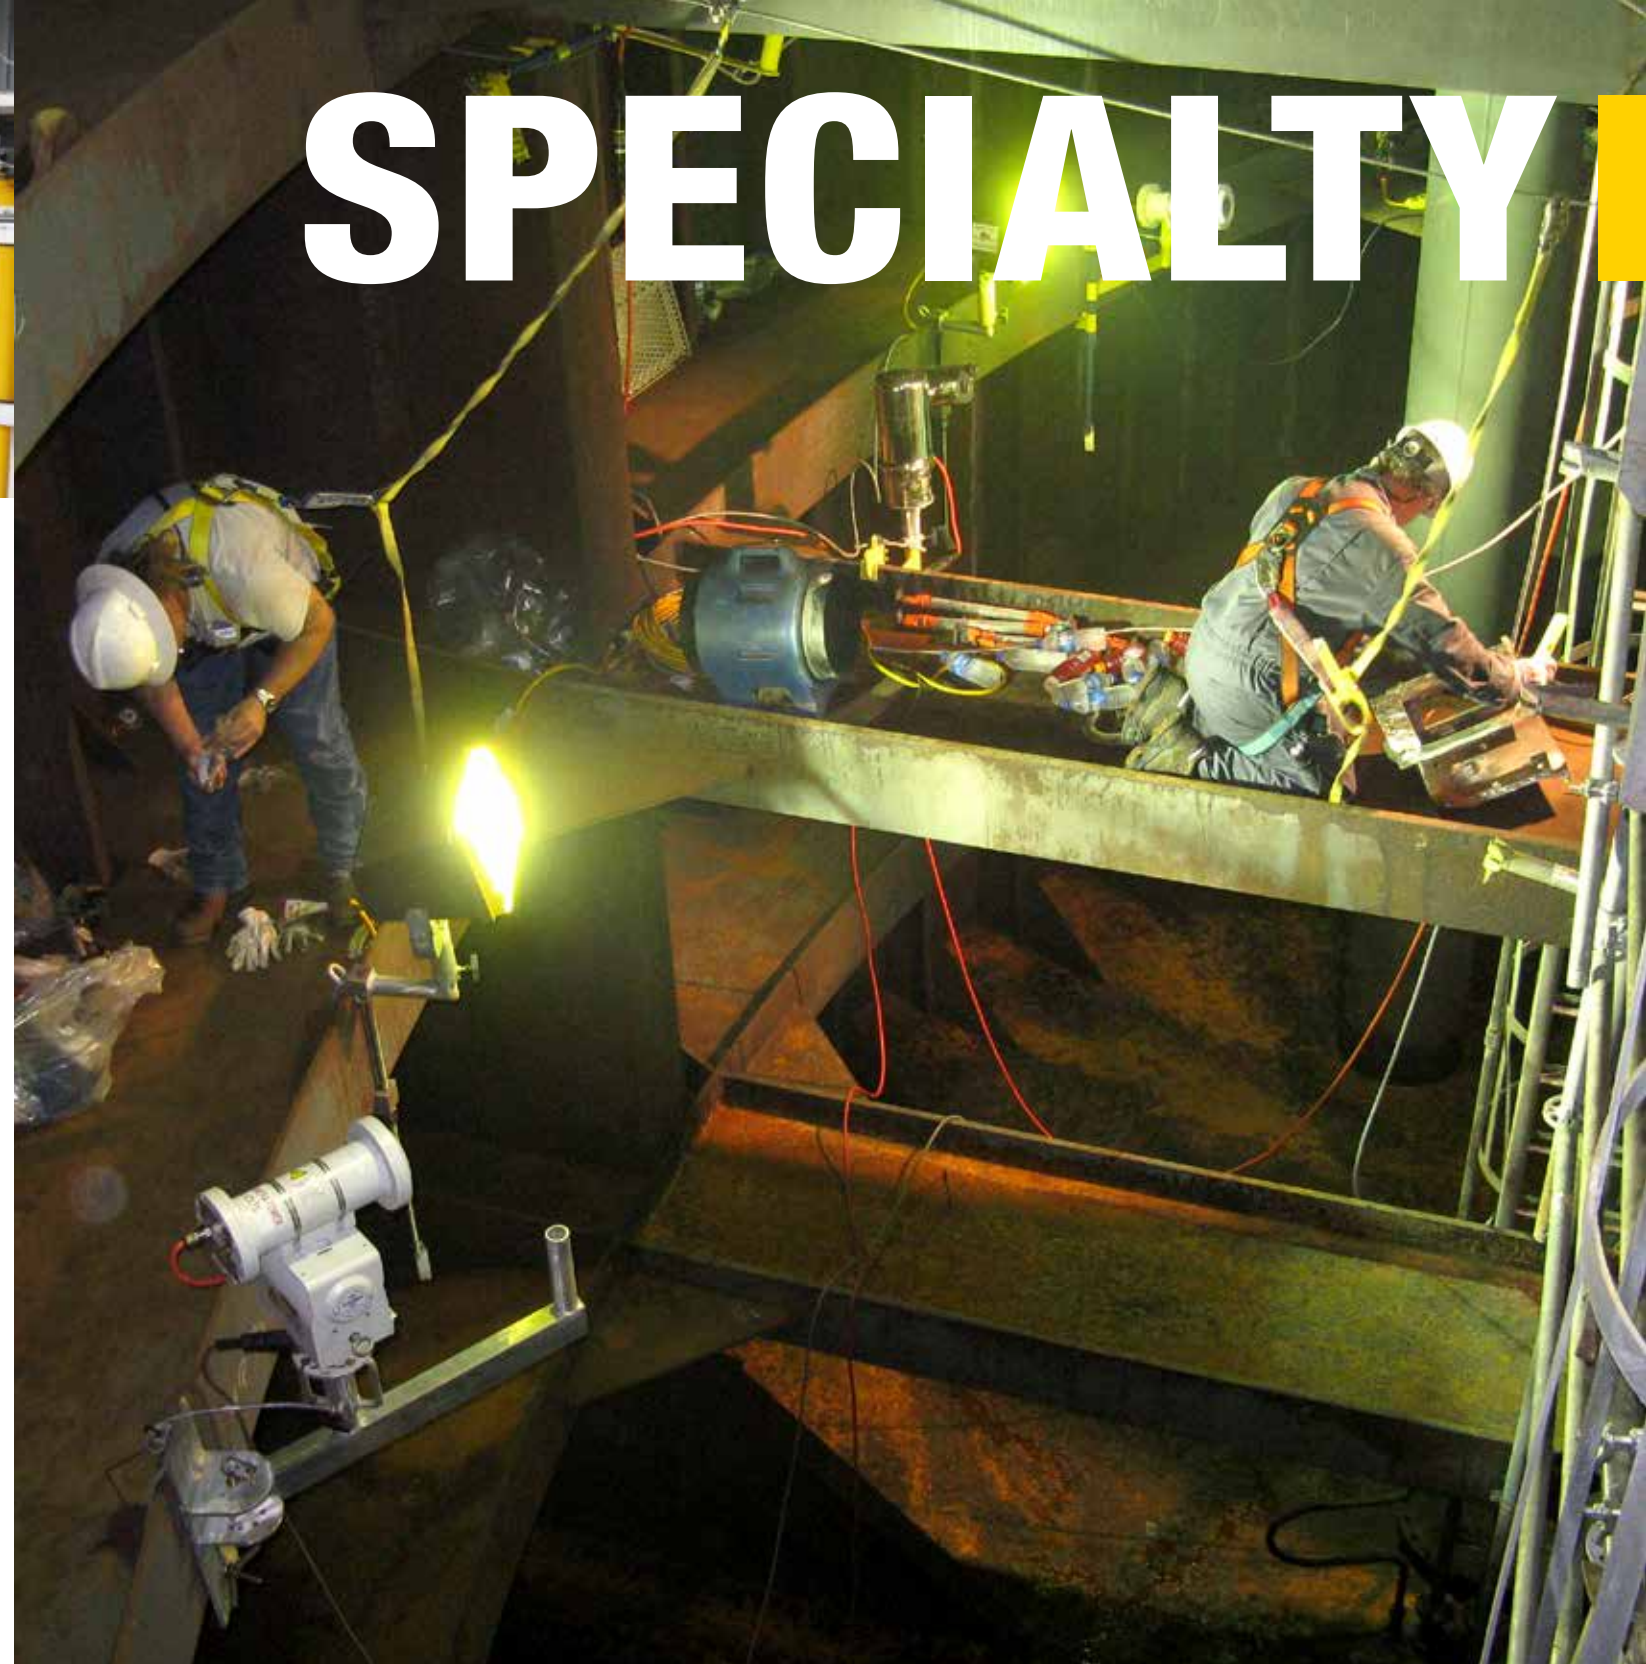

SPECIALTY CLEANING EQUIPMENT

We carry a large fleet of rotating equipment that is put through a meticulous maintenance regimen to ensure the highest quality and performance. Our units include pressure washers, air compressors, screen cleaners, steam generators, cooling fans, vacuums, and pumps.

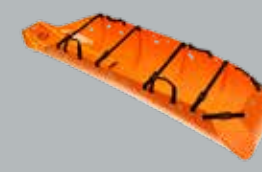

Rotating Equipment Available

- Pressure Washers
- Air Compressors
- Screen Cleaners
- Steam Generators
- Cooling Fans
- Vacuums

TRAILERS & EQUIPMENT

Tiger Safety provides safety trailers for hazardous work sites including climate control and emergency shower/eye wash. Moreover, we offer equipment including gas detection, respiratory protection, alarm systems, ventilation, lighting, radios, cameras, rotating equipment, and much more. Our safety equipment will help get your project completed on schedule—in even the most extreme conditions. With Tiger's complete equipment line, you have the flexibility to rent tools and equipment based on your specific project needs, saving you valuable time and money.

SAFETY TRAILERS:

- Combo Trailer
- Climate Control Trailer
- Emergency Shower & Eye Wash Station Trailer

SERVICES

With Tiger Safety, you get years of industry expertise through in-house and job site safety professionals. We can custom design a complete safety package that addresses your requirements and fits your safety culture. We can also supplement your staff by contracting our safety technicians to your operation.

Cleaning & Environmental Services

CONSISTENT. PREDICTABLE. EFFICIENT.

Production Management Industries, LLC (“PMI”) is a U.S. based energy service company that provides cleaning and environmental services to energy companies. PMI’s core services include offshore supply vessel cleaning with wash water reclamation, environmental site remediation & restoration, production & process equipment maintenance & integrity cleaning, offshore topsides prep for decommissioning, facility decommissioning/demolition/abandonment, pipeline flushing & decommissioning, solids management, and disaster response services. PMI operates facilities along the U.S. Gulf Coast, as well as in central and west Texas.

Applying practical solutions and technical expertise.

OFFSHORE CAPABILITIES

PMI Energy Services is a division of Tiger Safety Rentals. With over 50 years of experience, PMI is a leader in the energy services field, providing a full range of cleaning, environmental, and other oilfield services solutions. PMI has performed Topsides Prep on a quarter of all decommissioned facilities - shelf and deepwater - in the Gulf of Mexico.

Shelf & Deepwater Facility Topsides Prep for Decommissioning

- PMI's Topsides Prep experts:
 - Meet with and assist project managers to plan work scopes and develop workable schedules including SIMOPS with other contractors
 - Create safe work plans with detailed processes using annotated facility schematics
 - Provide regulatory documentation of all process vessels, equipment and ICP flushed and cleaned
 - Flex lance and flush well flow lines and departing pipelines
 - Provide RCRA services
 - Minimize and manifest waste streams

Facility Maintenance

- Facility Wash Down
- Grating & Grating Chip Replacement
- Piping & Valve Installations
- Chipping & Painting
- Hot Bolting
- Torquing Operations
- Gasket Replacement on Piping

- Rigging for Crane Operations
- General Housekeeping and Daily Operations Assistance (replace sump pumps, sump strainers, general roustabout work)

Gas Dehydration System

- Chemical / Mechanical Cleaning
 - Glycol Separator
 - Contact Tower
 - Reboiler
 - Surge Tank
 - Filter Pots
 - Exchangers
 - Piping

Hull Columns

- Clean Void / Ballast Tanks
 - Remove Sediment and Saltwater Residue
 - Visual Inspection for Defects
 - Flex lance sounding tubes
- Confined Space Entry Monitoring
 - Inspections (USCG, Company)
 - Construction & Maintenance Work
 - Structural Integrity
 - Rescue Services

Flex Lance and Flushing

- Piping
- Drain Lines
- Flow Lines
- Overboard Discharge Lines

Production System Cleaning & Degassing

- Process Equipment
 - Separators
 - Treaters
 - Freewater Knockouts
 - Scrubbers
 - Water Skimmers
 - Sumps
 - Skids

Innovative solutions for decommissioning & deepwater success.

DRILLING RIG CLEANING

PMI Drilling Services Division utilizes technology to consistently reduce downtime in marine fleets and drilling rigs, with a perpetual focus on waste minimization.

Offshore Supply Vessel Tank Cleaning – MudHog and Rooster Automated System

Our automated Mud Tank Cleaning Systems are innovative processes for cleaning mud tanks on marine supply vessels.

Automated System advantages include:

- Reduced port time / downtime (typical cleaning job 24-48 hours)
- Reduced wash water and flushing water sent for waste disposal
- Reduced extensive man-hours in confined space

Rig Cleaning System

PMI has the experience, expertise and technology to provide customers with the highest quality in both conventional and automated rig cleaning services. We focus on lowering rig cost through reduction of downtime and waste minimization, with a goal to help expedite the demobilization of the rig.

Dry Bulk Tank Cleaning

PMI's diverse fleet of mobile air movers provide our customers with a choice in waste containerization and disposal.

Wash Water Reclamation

- PMI's electro-catalytic advanced oxidation process purifies cleaning wash water and gunline flush water from boat cleaning activities.
- Recycles water for continuous use from boat to boat.

Rooster Automated Cleaning Station

Mobile Water Reclamation

Electro-Catalytic Advanced Oxidation Process (ECAOP) Water Treatment

- Wash water treatment and recycling system
- Uses electro-catalytic advanced oxidation process
- Treat and retain wash water for continuous reuse eliminating disposal charges
- Predominately for use in plants and refineries

Automated CCU Cleaning at PMI's Fourchon Super Dock

- Maximizes use of electric and electric over hydraulic cleaning equipment
- Significantly reduces worker exposure from a variety of safety challenges
- Expedites cleaning of portable containers to improve rental-to-release efficiencies and resulting costs to customer
- Provides superior platform for billing with predictable costs

MAINTENANCE & INTEGRITY CLEANING SERVICES

PMI Energy Services provides a comprehensive range of tank and vessel cleaning services both onshore and offshore.

Services

- Production vessel & process equipment cleaning
- Facility topside prep & decommissioning
- Flex-lancing / drain maintenance
- Hull column / ISIP inspection
- Pipeline & ICP flushing
- Above ground storage tanks
- Printed circuit heat exchanger cleaning
- Confined space entry monitoring & rescue
- Particle filtering for sensitive new fabrication
- Chemical cleaning, pickling & passivation of new and existing heat exchanger piping
- Glycol, amine & heat media system cleaning
- Production vessel internal retrofits
- Equipment rentals—pressure washers, pumps, hoses

NORM Expertise

- As an industry leader in Naturally Occurring Radioactive Material (NORM) removal and a full-service solutions

company, PMI has comprehensive capabilities to meet our customers' needs.

- Our NORM specific license through the Louisiana Department of Environmental Quality (LDEQ) for decontamination, remediation and waste processing ensures that we can handle each customer's unique needs from permitting to project release in multiple states.

- The clear choice for Tank & Vessel Cleaning solutions.

Industry experts with over 150 combined years of experience.

ENVIRONMENTAL SERVICES

PMI has a complete package of integrated services to provide our customers with the answers to their E&P, NORM, Chlorides, and other waste concerns from permitting to project release.

Our experienced team of professionals is qualified to handle all aspects of:

Remediation & Restoration

- Soil (upland, wetland, marsh or underwater)
- Pits (29-B & industrial)
- Total site restoration

Facility Decommissioning & Demolition

- Tanks, vessels & equipment
- Facility structures
- Compressor stations
- Concrete slabs
- Lease roads
- Pipeline abandonment & removal
- Rip and flip

Land & Facility Environmental Surveys & Assessments

- NORM confirmatory, informational & release surveys
- Environmental assessments & sampling
- Land profiling & sampling
- Wetland & underwater sampling and surveys

NORM, E&P and Other Waste Management

Project Management

PMI Project Support Group provides technical support related to Geographic Information Systems (GIS), coastal and wetland permitting, and preparing regulatory agency closure reports and correspondences.

Extensive project portfolio: offshore and land services.
